

Dear Coordinators, panel leads, and members,

In May 2018, the Ohio Articulation and Transfer Network (OATN) staff met to discuss planning for the 2018-2019 OTM, TAG, and CTAG Submission and Review Timeline. The staff concluded that innovative changes could be implemented that would allow you to better gauge the work of the panel and that would avoid peak exam/final schedules that provided conflicts in the FY2018 cycle. Additionally, these changes will allow OATN to provide administrative support and assistance as needed to submitting institutions, faculty, and panels.

At the May 24th OATN Advisory Board meeting the new review timeline for FY2019 was presented and met with positive feedback for moving forward. The changes as well as the new timeline can be viewed in the recorded webinar, below.

To summarize, there will now be a Rolling Cycle that encompasses two official cycles. Professional development opportunities will be offered to submitting institutions and faculty in September and offered again in February.

Thank you for sharing this recorded webinar with appropriate colleagues and administrators at your institution.
